Portfolio: [Vanathimuthu](#)

SUMMARY

Backend Developer specializing in Python with practical experience in developing scalable APIs and web applications using Django and Django REST Framework. Skilled in designing efficient database structures with PostgreSQL and MySQL, and building data-driven solutions like marketplace and workforce monitoring systems. Proficient in Docker, Git, and API testing tools, with a strong emphasis on performance optimization, system scalability, and continuous learning.

EDUCATIONAL QUALIFICATION

June 2024 - Dec 2024	-	Python Full Stack Developer in Besant Technology.
July 2019 - July 2023	-	B. E - Electronics and Communication Engineering, M.A.M College of Engineering and Technology, Trichy, Anna University, CGPA - 8.34
June 2018- March 2019	-	Govt Girls Higher Secondary School, Subramaniapuram. TN State Board, School – 67.8 %
June 2016- March 2017	-	Govt Higher Secondary School, Perumagalur. TN State Board, School – 87.8 %

PROFESSIONAL EXPERIENCE

Python Backend Developer

Emayam Technologies Private Limited | Feb 2025 – Present

Developed scalable REST APIs and backend services using Django and Django REST Framework. Collaborated with frontend developers to build and maintain web applications. Integrated third-party APIs to enhance platform functionality and user experience. Implemented authentication, authorization, and role-based access control systems. Optimized PostgreSQL and MySQL database queries to improve application performance. Troubleshoot, debugged, and resolved software issues to ensure system reliability. Participated in software design discussions, requirement analysis, and technical documentation. Utilized Git, Docker, and Postman for version control, deployment, and API testing.

PROJECTS

FOCULT

Employee Monitoring App for Desktop Activity Tracking

Developed an employee monitoring application to track and analyze desktop activities with screen capture capabilities. Streamlined administrative tasks by automating reporting, reducing the weekly administrative workload by 15 hours and enabling managers to focus on strategic priorities. Engineered algorithms for real-time activity tracking, providing actionable insights that were accessed by department leads to drive company-wide productivity. Developed both web and mobile admin dashboards for efficient monitoring and analytics.

Used Python to build a cross-platform desktop application for system monitoring. Integrated React.js, Django, and REST framework for seamless API integration with a PostgreSQL database.

Key Technologies: Python, Django, Django REST Framework, React.js, PostgreSQL, REST API.

NEXLIV

Land & Property Buying Platform

Developed a property buying platform to help users search, explore, and purchase land easily. Implemented secure authentication, role-based access, and efficient property listing management. Enabled users to upload property images for better visualization. Built scalable REST APIs using Django and optimized data handling with PostgreSQL.

Key Technologies: Python, Django, Django REST Framework, React.js, MySQL, REST API.

CERTIFICATIONS & TRAINING

- Successfully completed a 3-month internship as a Python Backend Developer at Emayam Technologies Private Limited, Velachery , Chennai.
- Certificate on python Full Stack Development in Besant Technology.
- Certificate for the completion of IBM project: “IOT based Smart Crop Protection system”.
- Completion of Java certification course offered by UDEMY.

SKILLS

Technical Skill :

Programming Languages : Python, SQL, JavaScript

Frameworks : Django, Django REST Framework, React.js

Web Technologies:HTML5, CSS3, Bootstrap, REST API Development

Databases : MySQL, PostgreSQL

Cloud Technologies : Google Cloud Platform (GCP)

Core Competencies:

Web Application Development,
API Development,
Backend Development,
Authentication & Authorization,
Database Design,
Troubleshooting & Debugging,
Technical Documentation,
Software Development Lifecycle.

Tools : Git, GitHub, Docker, Postman, Visual Studio Code

Soft Skills:

Time Management, Team Worker, Quick Learner.

LANGUAGE KNOWN

- English, Tamil
