SUMMARY

Python Backend Developer with 1+ year of experience designing, developing, and maintaining scalable web applications and RESTful APIs using Django and Django REST Framework. Experienced in PostgreSQL, MySQL, Docker, Git, Agile/Scrum development, and software lifecycle management. Skilled in API integration, authentication, debugging, cloud-based deployments, CI/CD concepts, and delivering secure, maintainable software solutions.

EDUCATIONAL QUALIFICATION

June 2024 - Dec 2024	-	Python Full Stack Developer in Besant Technology.
July 2019 - July 2023	-	B. E - Electronics and Communication Engineering, M.A.M College of Engineering and Technology, Trichy, Anna University, CGPA - 8.34
June 2018 - March 2019	-	Govt Girls Higher Secondary School, Subramaniapuram. TN State Board, School – 67.8 %
June 2016 - March 2017	-	Govt Higher Secondary School, Perumagalur. TN State Board, School – 87.8 %

PROFESSIONAL EXPERIENCE

Python Backend Developer

Emayam Technologies Private Limited | Feb 2025 – Present

- Developed and maintained RESTful APIs using Django REST Framework.
- Participated in Agile/Scrum ceremonies including sprint planning, daily standups, and retrospectives.
- Collaborated with frontend developers and QA teams to deliver business requirements.
- Implemented role-based authentication and authorization mechanisms.
- Performed code reviews and followed coding standards and best practices.
- Worked with Git-based version control workflows and release management.
- Containerized applications using Docker for consistent deployment environments.
- Assisted in troubleshooting production issues and implementing bug fixes.
- Optimized database queries and application performance using PostgreSQL and MySQL.
- Integrated third-party APIs and external services into business applications.

PROJECTS

FOCULT

Employee Monitoring App for Desktop Activity Tracking

Developed an employee monitoring application to track and analyze desktop activities with screen capture capabilities. Streamlined administrative tasks by automating reporting, reducing the weekly administrative workload by 15 hours and enabling managers to focus on strategic priorities. Engineered algorithms for real-time activity tracking, providing actionable insights that were accessed by department leads to drive company-wide productivity.

Developed both web and mobile admin dashboards for efficient monitoring and analytics.
Used Python to build a cross-platform desktop application for system monitoring. Integrated React.js, Django, and REST framework for seamless API integration with a PostgreSQL database.
Designed REST APIs consumed by web and mobile applications.
Implemented authentication and authorization features.
Optimized database performance through query tuning.
Participated in debugging and production issue resolution.

Key Technologies: Python, Django, Django REST Framework, React.js, PostgreSQL, REST API.

NEXLIV

Land & Property Buying Platform

Developed a property buying platform to help users search, explore, and purchase land easily.
Implemented secure authentication, role-based access, and efficient property listing management.
Enabled users to upload property images for better visualization. Built scalable REST APIs using Django and optimized data handling with PostgreSQL.
Developed scalable backend services using Django.
Implemented secure API endpoints with role-based permissions.
Designed normalized database structures in MySQL.
Integrated image upload and storage functionality.

Key Technologies: Python, Django, Django REST Framework, React.js, MySQL, REST API.

CERTIFICATIONS & TRAINING

- Successfully completed a 3-month internship as a Python Backend Developer at Emayam Technologies Private Limited, Velachery , Chennai.
- Certificate on python Full Stack Development in Besant Technology.
- Certificate for the completion of IBM project: "IOT based Smart Crop Protection system".
- Completion of Java certification course offered by UDEMY.

SKILLS

Technical Skill :

Programming Languages : Python, SQL, JavaScript

Frameworks : Django, Django REST Framework, React.js

Web Technologies: HTML5, CSS3, Bootstrap, REST API Development

Databases : MySQL, PostgreSQL

Cloud:

Azure Fundamentals, Azure App Service (Learning)

Google Cloud Platform

DevOps:

Git, GitHub, Docker, CI/CD Fundamentals

Core Competencies:

Web Application Development,
API Development,
Backend Development,
Authentication & Authorization,
Database Design,
Troubleshooting & Debugging,
Technical Documentation,
Software Development Lifecycle.

Testing:

Postman, API Testing, Unit Testing Basics

Methodologies:

Agile Scrum, SDLC, Code Review

Soft Skills:

Time Management, Team Worker, Quick Learner.

LANGUAGE KNOWN

- English, Tamil
